LET'S SAY GOODBYE

--to the CRUMPLERS
The Crumplers, who live at 3207 Coleridge Dr. are moving around July 12th. near Cameron Village. We will all miss them. When we hear the names Burks and Becky, we think of the rock group "KISS" because they used to love "KISS". Burks says they've gone out of style, but Becky is still crazy about them. Becky, with friends Bill and Brad Hunter and Lee Stephenson, once put on a "KISS" concert of their own. They said it was a lot of fun. Mrs. Crumpler is marrying Judge John Parker. Soon after they will be moving.

LET'S SAY GOODBYE

--to the Stephensons
The Stephensons, who live at 3400 Coleridge Dr. are moving in early July. We will all miss them, too; especially Mr. Stephenson's monster booth on Halloween. They really hate to say goodbye but they won't be far away. Their new address is 2424 East Lake Drive. That's right off Anderson Dr.

Let's say goodbye to these two great families.

SEE YA!!

LET'S SAY HELLO

There are some new neighbors who now live between the Healys and the Humphreys. They are a very nice and young couple. Their names are Parker and Ann Whedon. Welcome to the Whedons! The new couple who are moving into the Stephenson's house are Ken and Barbara O'Harren. Exactly when, we don't know but I bet they will be very fine neighbors. We are sorry to say that we don't know who is moving into the Crumpler's house as of now. LATE FLASH!...tells us that Jim and Frances Dempsey are moving in the Crumpler's house in July. When you have the time, drop by and say "hello" to our new neighbors.

SELDEN'S DOG

Maclain Selden's dog "Spike" died by a car and it was very very sad. They buried the dog in their backyard. And if you would like to see it, call the Seldens, phone 787-2792. But Maclain Selden, a dog lover, got a cute half-Labrodore and half-cocker spaniel puppy, who is black. He's got cute little floppy ears. Drop by and see the puppy.

CAR TROUBLE

Mr. Stephenson, who lives at 3400 Coleridge Dr., had some car trouble on the 23rd. Apparently his wheel ran down the street. But he got it back together and now his car is doing fine.
